CALARIT Website Testing Report

Website: https://idrbt.ac.in

Scan Date: 01 July 2026

Website Screenshot

Executive Summary

Overall Score: 61/100

Risk Level: High

Assessment

The website contains several findings that should be addressed to improve security and user experience.

Key Findings

• HTTPS is properly configured.

• SSL certificate requires attention.

• 5 Critical Issue(s) Detected

• 1 High Severity Issue(s) Detected

• 2 Medium Severity Issue(s) Detected

• 3 Low Severity Issue(s) Detected

Website Availability Analysis

Field	Value
Meaning	Website Availability determines whether the website is reachable and capable of responding to user requests over the internet.
Status	PASS
HTTP Code	200
Reason	The website responded successfully to the request, confirming that the web server is accessible and operational.
Business Impact	Users can access the website without interruption, resulting in good availability and a better user experience.
Recommendation	No immediate action is required. Continue monitoring the website to ensure consistent availability.

HTTPS Analysis

Field	Value
Meaning	HTTPS encrypts communication between users and the website, protecting sensitive information during transmission.
Status	PASS
Message	Valid SSL Certificate
Reason	The website is using HTTPS, ensuring that communication between the user's browser and the server is encrypted.
Business Impact	Sensitive information such as login credentials and personal data is protected against interception.
Recommendation	No action is required. Continue renewing SSL certificates before they expire.

SSL Certificate Analysis

Field	Value
Meaning	An SSL Certificate authenticates a website and enables encrypted communication between the browser and the server.
Status	VALID
Certificate Issuer	Sectigo Limited
Expiry Date	20-Dec-2026
Days Remaining	172
Reason	The website is using a valid SSL certificate issued by a trusted Certificate Authority.

Business Impact	User data transmitted between the browser and the website is encrypted and trusted.
Recommendation	Continue monitoring the certificate and renew it before it expires.

Security Headers Analysis

HTTPS Configuration

X-Frame-Options Header

X-Content-Type-Options Header

Content-Security-Policy Header

Strict-Transport-Security Header

Referrer-Policy Header

Field	Value
Status	Not Configured
Severity	Medium
Meaning	Controls how much referral information browsers share with external websites.
Business Impact	Sensitive URL information may be exposed.
Recommendation	Configure strict-origin-when-cross-origin.

https://www.idrbt.ac.in/pmpbt/

Field	Value
Meaning	Broken Link Analysis verifies whether hyperlinks on the website lead to valid and accessible resources.
Status	PASS
HTTP Status Code	200
Business Impact	The link is accessible and provides a good user experience.
Recommendation	No action is required.

Robots.txt Analysis

Field	Value
Meaning	The robots.txt file tells search engine crawlers which parts of a website they are allowed or not allowed to crawl.

Status	PASS
Reason	The website provides a valid robots.txt file that is accessible.
Business Impact	Search engine crawlers can easily discover website crawling rules, improving indexing and crawl management.
Recommendation	No action is required.

Sitemap Analysis

Field	Value
Meaning	A sitemap.xml file provides search engines with a structured list of important pages available on the website.
Status	FAIL
URLs Found	0
Reason	No accessible sitemap.xml file was found.
Business Impact	Search engines may take longer to discover website pages, reducing indexing efficiency.
Recommendation	Create and submit a valid sitemap.xml file.

Mobile Friendly Analysis

Field	Value
Meaning	A mobile-friendly website automatically adapts its layout and content to different screen sizes, providing a better experience on smartphones and tablets.
Status	PASS
Reason	The website satisfies the essential mobile-friendly checks and can be used comfortably on smartphones and tablets.
Business Impact	Visitors using mobile devices will have a better browsing experience, improving usability and engagement.
Recommendation	Continue maintaining responsive layouts and regularly test on different mobile devices.

Sensitive Files Analysis

Field	Value
Meaning	Sensitive files include environment files, backups, database dumps and configuration files that should never be publicly accessible.
Status	FAIL
Files Exposed	5

Reason	One or more sensitive files are publicly accessible.
Business Impact	Attackers may obtain confidential information such as credentials, configuration files or backups.
Recommendation	Immediately restrict access to these files and remove them from public access.

Exposed Files

- /.env
- /.git
- /backup.zip
- /database.sql
- /config.php

Technology Detection Analysis

Field	Value
Meaning	Technology Detection identifies the server software, web framework, programming language and third-party technologies used by the website.
Status	PASS
Server	nginx
Framework	WordPress
Programming Language	Not Detected
Technologies Detected	2
Reason	The scan successfully identified the technologies powering the website.
Business Impact	Knowing the server, framework and programming language helps maintain software, identify outdated components and improve security management.
Recommendation	Keep all detected technologies updated with the latest stable security patches.

Detected Technologies

- jQuery
- WordPress

Directory Listing Analysis

Field	Value

Meaning	Directory Listing determines whether website folders can be browsed directly by visitors.
Status	PASS
Reason	No publicly accessible directory listing was detected.
Business Impact	Website directories are protected from unauthorized browsing.
Recommendation	No action is required. Continue restricting directory indexing.

Directories Checked

• /uploads/ : PASS

• /images/ : PASS

• /backup/ : PASS

• /files/ : PASS

Performance Analysis

Field	Value
Meaning	Performance Analysis measures the loading speed and efficiency of a website.
Status	PASS
Performance Score	90/100
Load Time	1.52 Seconds
Page Size	225.45 KB
Images Detected	48
JavaScript Files	42
Reason	The website completed the performance scan successfully.
Business Impact	Good website performance improves user experience and search engine ranking.
Recommendation	Continue monitoring performance and optimize large assets whenever necessary.

Accessibility Analysis

Field	Value
Meaning	Accessibility Analysis evaluates whether a website follows accessibility best practices for all users.
Status	FAIL
Accessibility Score	25%

Checks Passed	1
Total Checks	4
Reason	Multiple accessibility issues were detected.
Business Impact	Users with disabilities may experience significant difficulties using the website.
Recommendation	Implement accessibility standards such as WCAG 2.1.

Domain Information Analysis

Field	Value
Meaning	Domain Information Analysis retrieves WHOIS information such as domain registrar, creation date, expiration date and remaining validity.
Status	PASS
Domain	idrbt.ac.in
Registrar	ERNET India
Created	28-Feb-2004
Expires	28-Feb-2029
Days Remaining	972
Reason	The domain registration information was successfully retrieved.
Business Impact	Domain ownership and expiration details help monitor domain validity and reduce the risk of unexpected expiration.
Recommendation	Monitor the domain expiration date and renew it before expiry.

Email Security Analysis

Field	Value
Meaning	Email Security Analysis verifies whether the domain is protected using SPF, MX, DKIM and DMARC records.
Status	PASS
Security Score	100%
Checks Passed	4
Total Checks	4
Reason	Email authentication records are properly configured.
Business Impact	Email spoofing and phishing risks are minimized.
Recommendation	Continue monitoring SPF, MX, DKIM and DMARC records.

Open Ports Analysis

Field	Value
Meaning	Open Ports Analysis identifies network ports that are accessible from the internet.
Status	PASS
Open Ports	0
Ports Scanned	4
Reason	No monitored ports are publicly accessible.
Business Impact	The server exposes minimal network services.
Recommendation	Continue restricting unnecessary network ports.

Final Conclusion

Field	Value
Website	https://idrbt.ac.in
Overall Score	61/100
Overall Rating	FAIR
Critical Issues	5
Medium Issues	2
Low Issues	3

Summary

The website achieved an overall security score of 61/100 and is rated as FAIR. The audit identified 5 Critical, 2 Medium and 3 Low severity issue(s). The assessment covered security, SEO, accessibility, performance, technology, domain configuration, email security and network exposure.

Recommendation

Immediately resolve all Critical security issues before deploying the website.
